Re: Granville Solvents Site (GSS)

Dear Mr. Pfefferle:

This letter provides notice that Diane Spencer will be the new remedial contact in the Region 5 Office of Superfund for the Granville Solvents site. You should now forward deliverables to Diane's attention rather than to me. Diane is located at the same address as myself, and Diane's phone number is (312) 886-5867. In talking recently with Mike Raimonde, perhaps a meeting in Chicago in about a month would be useful, in part to provide for a transition and also to discuss the soils and groundwater data when it is tabulated by M&E (and before the workplan for the soils cleanup and groundwater cleanup is submitted).

I have enjoyed working on this site, and would like to thank you and Metcalf and Eddy's staff, in particular Mike Raimonde, for successfully meeting the work requirements within schedule to date. You and the Granville PRP team should be proud of the significant environmental progress you have accomplished over the past two years at the site.

Please call if you have any questions or need additional information.

Sincerely,

Edward J. Hanlon
